QUEEN'S GLOBAL ENERGY CONFERENCE

ABOUT QGEC

THE ENERGY OF TOMORROW

The global energy industry is in the midst of a dramatic and prolonged state of change, so never has the launch of a new energy conference been more timely. Pricing of energy related commodities such as oil, natural gas and coal are at their lowest points in decades, and increasing emphasis is being put on finding an optimal balance between energy and the environment. At Queen's Global Energy Conference, our goal is to provide a forum in which delegates can interact with industry leaders, such as yourself, to gain a unique insight into the future of energy

In our inaugural year, we are aiming to bring together bright minds from across all disciplines to educate them on the importance of energy integration. This year's conference theme, "The Energy of Tomorrow", will focus on how the integration of new energy infrastructures and innovative technologies impact the energy industry.

FUNDAMENTAL PILLARS

1. Educate our delegates on emerging trends and challenges that may be faced in the energy industry.
2. Facilitate the interaction of delegates and industry leaders, creating a forum for discussion of the industry's most important topics.
3. Motivate our delegates to improve their critical-thinking skills and leadership abilities.

BENEFITS OF PARTNERSHIP

PROMOTE

your firm to competitors, stakeholders and delegates by presenting your business plan, thoughts and company's role in the future of energy. This conference is an ideal forum for increasing brand awareness and gaining recognition as a community partner.

NETWORK

and create lasting relationships with speakers, sponsors, and delegates alike. QGEC will be hosting leading experts from a variety of different backgrounds, so take advantage of the opportunity to connect with individuals of similar interest in the future of the energy industry.

EDUCATE

and connect with an engaged audience of students from a variety of different disciplines. The conference delegates will have the opportunity to shape the future of global energy, directed by a lasting impression from your breadth of knowledge in the industry.

ADDITIONAL BENEFITS

Along with all of the benefits highlighted above, QGEC has a variety of additional opportunities that companies may choose to take advantage of if they wish.

These Benefits
Include

- Representation on the conference website
- Access to delegate resumes if you are interested in recruitment
- Advertising on conference social media forums

Additionally, we would be delighted to discuss any recommendations or ideas that you feel would improve your partnership experience.

MOVING FORWARD

At QGEC, we are committed to providing our sponsors with a unique and customized partnership that caters to your firm's specific needs. We hope that you will join us on our journey to educate the next generation on the importance of the energy industry. We look forward to working together and creating this unforgettable experience. Please contact one of our sponsorship coordinators if this exciting opportunity aligns with your interests and values. On behalf of our entire executive team, we appreciate your time and hope to continue to build our relationship in our conference's inaugural year.
